Free New York has a four-point plan to cut property taxes in Niagara County.

Our job:

1. Increase public awareness. We are doing that through a \$10,000 advertising campaign involving billboards, television, radio and the internet.
2. Specific proposals for real change. Our 19 policy studies present many specific proposals that, if enacted, would immediately cut property taxes substantially. See, <http://freeny.org>

Your job:

3. Lobbying your elected officials. Free NY is limited by law from substantial lobbying. It's up to **you** to take our ideas to your elected officials and urge their adoption.
4. Supporting good candidates for public office. Please exercise your right to support candidates who are committed to support specific proposals for real change.
